725 Main Street Sewer Pump Station Project Construction Update

(HYANNIS, MA – January 25, 2024) Starting, Monday, January 29, 2024, the Town of Barnstable’s Contractor, RJV Construction Corporation, will begin onsite excavation for the 725 Main Street Sewer Pump Station. This activity will require significant construction equipment and will consist of base excavation, followed by pile driving to establish the support system required to install the foundation of the facility.

Noise and vibration are to be expected, particularly during the installation of the piles and sheeting. Vibration monitoring will be in place throughout construction. Work will occur Monday through Friday, from approximately 7:00AM to 4:00PM and is part of the Town’s Sewer Pump Station Rehabilitation Program.
