Not a Resident? You can still participate. Call Anthony Gerace at #508-375-6699 to get a quote and appointment.

Congrats! MassHCIC's 2024 Summer All-Star Internship Program

The All-Stars Program provides an opportunity for college students and Cape Cod towns/organizations to work together on housing and climate initiatives throughout the region. Students spend a summer with a host family on the Cape to accomplish two main goals. The first, is to develop their own research project at the intersection of affordable housing, environmental sustainability, and/or climate resilience. The second aspect involves each pair of interns to be partnered with a town on the Cape. Through this partnership, interns collect data on municipal assets, pair those with potential climate/housing tech innovators who can pilot test a solution, and complete any other town projects/initiatives related to housing, energy, or climate.

Some interesting projects from this year include:

- An examination of our bike infrastructure with recommendations for expansion and the economic benefits of doing so
- A survey of healthcare workers in Barnstable and what housing challenges they face, along with recommendations
