How can you help?

One of the most important things you can do to help our plow drivers is to prepare your home ahead of the storm by marking the edge of your property with reflective stakes.

- ▶ Plow stakes can be wood or fiberglass with reflectors on top or wrapped around the body of the stake.
- ▶ The reflective material needs to be high enough up the stake that it can be seen over the snow drift.
- ▶ Stakes should be driven into the ground as close to the edge of the property as possible.
- ▶ Generally, we recommend placing them every 8-10 feet.

FOLLOW PUBLIC SAFETY ADVICE

- ▶ When a driving ban is in effect, please stay off the roads. It is for your protection.
- ▶ Reduce your speed. This is the number one cause of winter accidents.
- ▶ Please give plows and sanders the right of way and stay at least 50 feet back from each.
