ROUTE 6A TRANSPORTATION VISIONING STUDY

preserving history, improving safety,

capecodcommission.org/6A-Visioning

What matters most when it comes to improving the function and safety of Route 6A while preserving its beauty and local charm?

A nationally designated scenic byway, Route 6A serves as a vital corridor where people live, work, and travel. However, the roadway currently lacks safe and accessible options for walking, biking, and other forms of transportation. In cooperation with the adjacent towns and the Massachusetts Department of Transportation, the Cape Cod Commission is conducting a two-year study to explore ways to improve safety along the corridor while protecting its unique character.
